Her Majesty Queen Elizabeth II – RIP

Countless tributes have been paid, following the death of Her Majesty Queen Elizabeth II. As an English-speaking club made up of many nationalities, we would like to express our own recognition of Her Majesty's lifelong commitment to her country and the Commonwealth. The late Queen was an accomplished ambassador for Britain on the world stage, which gave her a respected international profile. We wish her successor King Charles III a long and fruitful reign.

Artificial intelligence (AI) is part of our lives and it influences the choices we make. However, it is still difficult to identify what it can do and what its limitations are. This exhibition offers an interactive opportunity to discover how it works and its fields of application. It uses scientific research and art installations to question our relationship with AI. Created in collaboration with the Idiap Research Institute, Martigny.

We shall go for a meal or a drink afterwards.

Details in due course. Contact Heinz
